

JOINT SWIG & IChemE REGULATORY AFFAIRS WORKSHOP MONITORING OF INDUSTRIAL EFFLUENTS

16th October 2008, Middlesbrough Teaching & Learning Centre, Cargo Fleet Lane, Middlesbrough, TS3 8PE, Tel 01642 242075, For directions click on: www.mtlc.co.uk
All installation regulated under the Environmental Permitting Regulations (previously PPC) must monitor their effluent discharges. Water companies also impose conditions and limits. The Environment Agency places particular emphasis on the use of continuous monitoring systems that conform with their monitoring certification scheme: MCERTS. This Workshop will provide an update on these regulatory requirements and an opportunity to hear and discuss the practical ways in which they can be met. The target audience is industrial operators, instrument suppliers, regulators and environmental consultants.

Chairman: [Stuart Newstead, Newstead Consulting Ltd.](#)
