

Measurement & monitoring implications of the Water Framework Directive

28th April '05

Silsoe Research Institute, Bedford, MK45 4HS

www.sri.bbsrc.ac.uk

Every one seems to agree that the Water Framework Directive will have a significant impact but there is also agreement that we still have a lot to do to meet the monitoring & measurement challenges. This Workshop will explore the implications of the WFD and will speculate on the monitoring, measurement and sensor needs. The Workshop will be valuable to policy makers, academics, sensor developers, manufacturers, suppliers and users.

Chair: **Prof. David Cowell, University of the West of England, Bristol**

9.30 am Registration & coffee

10.00 am An interpretation of the legal obligations of the Water Framework Directive.

Dr Peter Howsam, Cranfield University, Policy and Legislation Unit

10.30 am The Agency's approach to monitoring requirements

Alastair Ferguson, The Environment Agency
